CUSTOM STAINLESS STEEL TANKS · MIXERS · SYSTEMS

EQUIPMENT FOR ALL YOUR DISTILLATION NEEDS

WE KNOW A THING OR TWO ABOUT WHAT IT TAKES TO MAKE FINE SPIRITS

ICC Group is more than just a manufacturer of stainless steel vessels and equipment. We're a team of engineers from every discipline working alongside talented designers, planners, fabricators, and artists, all who are experts in their field - and together we've been custom designing and building distilling equipment since 1987.

From storage and mixing tanks to stills and fermenters, to automated systems and large-scale facility buildouts, we've done it all and have a list of top-tier clients to show for it.

AUTOMATION EXPERTS

Whether you are designing, updating, or expanding your facility, as a Rockwell Automation PartnerNetwork member, ICC's automation team can save you time and money by implementing industrial automation.
